The distress of urinary troubles.

When she finds freedom?

Many readers will profit by the following:

Mrs. E. B. Lewerenz, 14 First street, Barre, says: "From my experience with Sloan's Kidney Pills, I know that they are an effective kidney medicine. Last fall I began to suffer from kidney trouble, and as one of my relatives had been cured of this trouble by Sloan's, I decided to try them. My back was so lame and painful I could not do any work that required stooping or lifting. After I had taken three boxes of Sloan's I was relieved. I keep Sloan's Kidney Pills in the house all the time; whenever I have the opportunity, I recommend them."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Sloan's Kidney Pills—the same that Mrs. Lewerenz had. Foster-Milburn Co., Mrs. Buffalo, N. Y.—Adv.

SAGE TEA KEEPS YOUR HAIR DARK

It's Grandmother's Recipe to Bring Back Color, Youthfulness and Luster—Everybody Is Using It Again.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored, and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Adv.

POLISH INDUSTRIES SUFFER. Textiles, Mining and Others Practically Ruined by War.

Next to the textiles, mining is the principal industry in Poland, and this has suffered severely owing to the war. According to a Berlin newspaper article, transmitted by Commercial Attache Erwin W. Thompson, Copenhagen, Denmark, coal mines that Russia started to open before 1914 have been operated by the German military government. The iron industry has fallen off, the smelting works being greatly handicapped. The zinc and other metal industries and the cement workers are being only partly worked. Few of the glass works are now running. In Warsaw the sugar industry and all others centered in the city have been greatly reduced in activity.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backache or Bladder Troubles You—Salts Is Fine for Kidneys.

Meat forms uric acid, which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste, get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is a harmless, effective, lithia-water drink, which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.
